

Manual Recording

You can adjust settings, such as brightness and shutter speed, by using the manual mode.  
Manual recording can be set for both video and still image modes.

1 Select video or still image mode.

- The video or still image mode icon appears.

2 Select the Manual recording mode.

- The mode changes between Auto and Manual with every touch.

3 Start recording.

- Press again to stop.

**NOTE:**—  
• The manual settings are displayed only in the manual mode.

Manual Recording Menu
