

## Recording Menu

You can adjust various settings, such as brightness and white balance, to suit the subject or purpose. You can also change settings such as picture quality and gain.

Setting	Details
MANUAL SETTING	Recording settings can be adjusted manually. <ul style="list-style-type: none"><li>• They are displayed only when recording in the manual mode.</li></ul>
VIDEO QUALITY	Sets the video quality.
ZOOM	Sets the maximum zoom ratio.
DIS	Camera shake during recording can be effectively reduced.
GAIN UP	Makes the subject appear bright automatically when recording in dark places.
TIME-LAPSE RECORDING	Enables the changes of a scene that occur slowly over a long period to be shown within a short time by taking frames of it at a certain interval.
AUTO REC	Enables the unit to start or stop recording automatically by sensing the changes in brightness within the red frame displayed on the LCD monitor.
SELECT ASPECT RATIO	Recording with aspect ratio 16:9 or 4:3 can be performed.
WIND CUT	Reduces the noise caused by wind.
