## Dubbing Files to a DVD Recorder or VCR

You can dub videos by connecting to a DVD recorder or VCR.
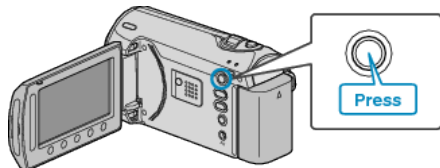

- Refer also to the instruction manuals of the TV, DVD recorder, VCR, etc.

1 Connect to a VCR/DVD recorder.

- Press and hold the power button for 2 seconds or more to turn off the power.

2 Select the playback mode.

3 Prepare the TV/VCR for recording.

- Switch to a compatible external input.
- Insert a DVD-R or video tape.

4 Prepare this unit for playback.

- Set "VIDEO OUTPUT" in the connection settings menu to the aspect ratio (4:3 or 16:9) of the connecting TV.

"VIDEO OUTPUT" (☞ P. 0)

- To include the date during dubbing, set "DISPLAY ON TV" in the connection settings menu to "ON".
  Set "ON-SCREEN DISPLAY" in the playback menu to "DISPLAY DATE ONLY".

"DISPLAY ON TV" (☞ P. 0)
"ON-SCREEN DISPLAY" (☞ P. 0)

5 Start recording.

- Start playback on this unit and press the record button on the VCR/DVD recorder.

"Playing Back Videos" (☞ P. 0)

- After playback is complete, stop the recording.

NOTE:

- When there are many videos to dub, you can create a playlist in advance and play it back so that all your favorite videos can be dubbed at once.

"Creating Playlists with Selected Files" (☞ P. 0)
"Playing Back Playlists" (☞ P. 0)

CAUTION:

- Dubbing cannot be performed by connecting this unit to a Blu-ray recorder with a USB cable.
  Connect and dub using the supplied AV cable.
