

Face Detection Zoom

You can enlarge the part including a face in a still image and save it as a new file.

1 Select the playback mode.

2 Select still image mode.

3 Select a still image and touch **OK** to start playback.

4 Touch **OK**.

- A frame appears around the face of the subject.

5 Select the face to zoom and touch **OK**.

- The face that is highlighted in red is zoomed in.

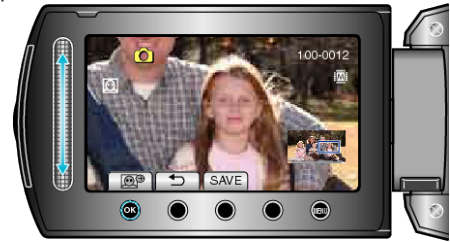

6 Touch **OK** repeatedly to change the zoom ratio.

- You can select a different subject using the slider.
- To end playback, touch **END**.

Saving Zoomed Images of Subject's Faces

① After step 6, touch "SAVE".

- Zoom images are saved in 16:9 aspect regardless of the original aspect.

② Select "YES" and touch **OK**.
