

## Creating Animation Effects (ANIMATION EFFECT)

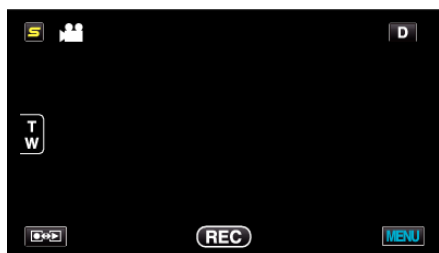

You can add various effects to videos to create a different atmosphere from the usual recording.

- 1 Open the LCD monitor and select the video mode.

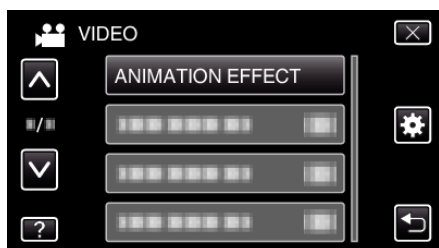

- The video mode icon appears.

- 2 Tap "MENU".

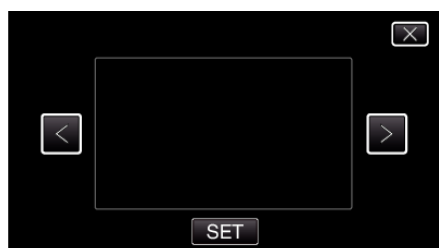

- 3 Tap "ANIMATION EFFECT".

- Tap  $\wedge$  or  $\vee$  to move upward or downward for more selection.
- Tap  $\times$  to exit the menu.
- Tap  $\leftarrow$  to return to the previous screen.

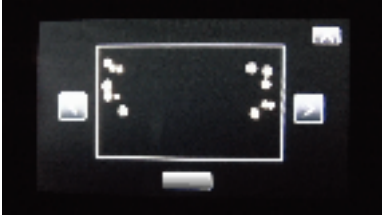

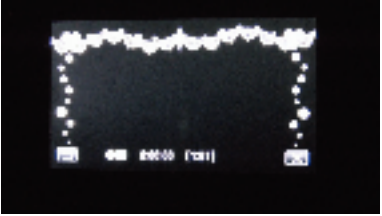

- 4 Select a desired effect and tap "SET".

- Tap  $<$  or  $>$  to select an item.
- To select another effect, tap  $\leftarrow$ . To cancel the effect, tap  $\times$ .

**Memo :** \_\_\_\_\_

- After setting the animation effect, press the START/STOP button on this unit to start recording.
