

Video Quality

This unit can perform recording in both high and standard definition.  
By default, it is set to high definition (LS).

■ To change the setting

High Definition	LS (16:9)		Higher video quality
	LE (16:9)		
Standard Definition	SSW (16:9)	SS (4:3)	
	SEW (16:9)	SE (4:3)	More recording time

- For the approximate video recording time, refer to the following page.
