

Changing the Settings of a Registered Bluetooth-compliant Device

You can change the settings of a registered Bluetooth-compliant device. The audio settings of the headsets may also be changed.

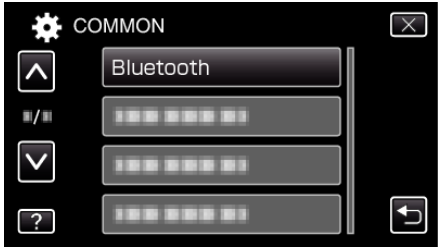

1 Tap "MENU".

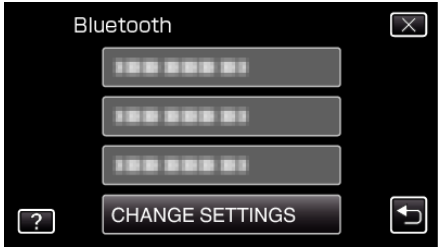

2 Tap "⚙️".

3 Tap "Bluetooth".

4 Tap "CHANGE SETTINGS".

5 Tap the desired device.

Headset 2

- "EARPHONES AUDIO 1/2" is common for headset 1 and headset 2. ON/OFF cannot be set separately. MIC AUDIO: Selects ON/OFF for the headset microphone input.

Memo :

- The connection setting becomes "OFF" after the device is changed. Change the setting to "ON" from the menu.

Smartphone	Changes the mobile phone to be used as smartphone.
GPS Receiver	Changes the device to be used as GPS receiver.
Headset 1/	Changes the device to be used as headset 1 or headset 2. Audio settings ("EARPHONES AUDIO", "MIC AUDIO") may also be turned ON/OFF. EARPHONES AUDIO 1/2: Selects whether to output the headset microphone input from the headset earphones. • Microphone audio of the camera will be output from the earphones even when this is set to "OFF".
