

Recording Videos to Discs

Copy the files that are arranged using the user list to DVDs.

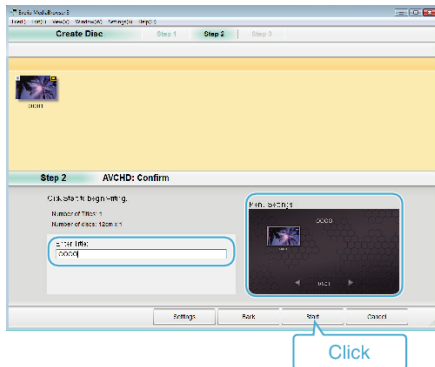

- 1 Insert a new disc into the PC's recordable DVD drive.
- 2 Select the desired user list.

- If you select "Select all files displayed", only the displayed videos are copied to the disc. Proceed to step 4.
 - If you select "Select files individually", proceed to step 3.
- 3 (When "Select files individually" is selected) Select the files to copy to disc in order.

- 4 Set the top menu of the disc.

- Set the title and menu background.
- 5 Copying to disc starts.

- After copying, click "OK".

Memo :

- The following types of discs can be used on the provided software Everio MediaBrowser.
DVD-R
DVD-R DL
DVD-RW
DVD+R
DVD+R DL
DVD+RW
- Everio MediaBrowser support AVCHD disc format.
- When copying videos recorded in UXP recording mode to create an AVCHD disc, the videos need to be converted to XP recording mode before copying. Therefore, it may take a longer time than copying videos recorded in other modes.
- Use Everio MediaBrowser Player to play back the disc. Refer to the help file of the provided Everio MediaBrowser software to operate.
- To view the help file of Everio MediaBrowser, select "Help" from the Everio MediaBrowser's menu bar or press F1 on the keyboard.

- If you encounter any problems with the provided software Everio MediaBrowser, please consult the "Pixela User Support Center".
